About Me

I am a dedicated and experienced backend developer with a passion for building robust and scalable systems. With a strong foundation in server-side technologies, databases, and API development, I take pride in crafting efficient and reliable solutions that power the backbone of web and software applications. I am committed to staying up-to-date with industry best practices and emerging trends, ensuring that I deliver high-quality code that meets both user and business needs.

Professional Experience

Frontend Workshop Program 2 months

Key responsibilities:

- Collaborate with backend developers and web designers to improve usability
- Responsive and interactive web design
- Follow DRY principle and making reusable components
- Stay up-to-date on emerging technologies

Backend Workshop Program 2 months
